

Pi Mu Epsilon Problem of the Month

September 2026

		8						
	1	4				3	8	
5	3			1	8		4	9
8					6			
4						6		8
			8		5	7		
			2	6				7
		6				1	9	
		9	7	5		4		

Problem of the Month Rules:

- ⌘ The digits 1 through 9 appear in each row, each column, and each 3X3 sub-block exactly once.
- ⌘ Regions in blue contain numbers that form Pythagorean triples.
- ⌘ Submissions may only be made by individuals, or groups of two, and must be dated.
- ⌘ Due date: September 25, 2026, before 5 p.m. to Dr. David Shoenthal or Dr. Phillip Poplin.
